CONFIRMATION

We herewith declare that neither our product series CEEtyp nor Procon nor our "E-Mobility" charging devices contain any substances nor exceed the limit values according to the Directive 2002/95/EC, replaced by the new directive 2011/65/EU dated 08.06.2001 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS), which are prohibited or restricted.

Our products are not affected by the amendments to the RoHS Directive dated 01.07.2008.

Our products are not concerned by the Directive 2011/65/EU on waste electrical or electronic equipment (WEEE).

Our product series CEEtyp is only concerned by Directive 2012/19/EU (WEEE) for application in categories 1 – 10, but in relation herewith it is not considered as a device as defined by the Directive.

The present declaration has been issued on the base of the currently valid laws and regulations as well as to our best knowledge and to our current state of information. We recommend the addressee or the recipient of this declaration to ask for updates in regular intervals.

The present declaration replaces all previous declarations regarding this issue and it is valid for goods produced from January 2010 on.
